“THE PIRATES OF PENZANCE”

FREDERIC is a young Pirate apprentice who suffers from a somewhat abnormal conscience ; so much so, that when he finds he has been apprenticed to a Pirate instead of a Pilot, as intended, he remains true to his indentures and becomes a faithful member of the Pirate band.

But when, upon his twenty-first birthday, his indentures expire, he deems it his duty, presumably also from conscientious motives, to devote himself henceforth to their extermination, a course to which even his late master, the Pirate King, could not dissent ; indeed, that gentleman exhorts him ever to act in accordance with the dictates of his conscience. This conscientious rectitude of action seems to be catching, for Major-General Stanley, whose beautiful daughters have fallen into the clutches of the Pirates whilst enjoying a little promiscuous paddling on the beach, becomes stricken with remorse because he secures their release by telling those simple-minded Pirates a deliberate lie. Meanwhile, Frederic, in pursuance of his determination to exterminate his former comrades, enlists the services of a squad of Police, with sergeant all complete, and proceeds to attack the Pirates in their stronghold.

A terrible discovery is made when, at the crucial moment, Frederic discovers that he was born in leap year, and on the 29th February ! Having a birthday once in five years means that, counting by birthdays, he is only five years old, and consequently still a Pirate. In pursuance of that strict moral code which governs all his actions, he deems it his bounden duty to acquaint the Pirate King of the diabolical deceit of the Major-General. Dire retribution now awaits that unfortunate individual, for the Pirates seize him while soliloquising in his night attire, supported by his beautiful daughters, similarly garbed. In the midst of this the rival forces meet, the Police are hopelessly defeated, and the situation is only saved by an appeal to the loyalty of the victorious Pirates to yield in the King's name. This patriotic appeal fortunately proves irresistible, and the Pirates loyally comply. But it seems that these self-same Pirates are really all noblemen who have gone wrong, and consequently, by birth and rank, very desirable matrimonial partners for the Major-General's beautiful daughters, providing, of course, they resume their proper stations in life.

There will be an Interval of ten minutes between “ Trial by Jury ” and “ The Pirates of Penzance,” and one of five minutes between Acts I and II of the “ Pirates ”

“TRIAL BY JURY”

THE scene is a Court of Justice, before which Edwin appears, sued by Angelina for breach of promise of marriage. In announcing to the jury the nature of the case, they are about to try, the learned Judge tells them how he attained his position by falling in love with a “ rich attorney's elderly, ugly daughter.” The attorney was so delighted with the match, that he interested himself in the career of the budding Judge, who, having climbed to the top of the legal ladder, promptly threw over the elderly, ugly daughter.

Angelina enters, accompanied by a chorus of bridesmaids. Her counsel, having stated his client's case, the plaintiff reels and falls sobbing on the breast of the foreman of the jury. Edwin pleads in defence that his heart is so inconstant that he loves one young lady today and another tomorrow, but this he attributes to his changing nature. This fails to satisfy Angelina, who demands heavy damages as the only consolation for her blighted prospects. Edwin continues that he is a bully always in liquor, and assures the bench that he would doubtless assault Angelina if he married her : whereupon the Judge suggests that he be made tipsy there and then in order to put his statement to the proof. Counsel for plaintiff expresses a rooted objection to such a procedure. This infuriates the learned Judge, who summarily dismisses the jury, telling them he has decided to marry the fair plaintiff himself. He comes down from the bench to the floor of the court and embraces Angelina. All congratulate him on his wonderful judgment, and he is seen dancing back with Angelina to the bench.
